

K17SW 2022 JULY Web Development and Databases

ASSIGNMENT

Assignment Information

Group size : 4 students in a group

DueDate : Week 11

Introduction:

Happy U is organizing a “Gala Dinner 2023” at this coming July. As the web developer, you are required to create a website for the event. Work as a team, design and create a suitable website for the event. You may add on any needed information in this assignment. You should demonstrate your creativity in this assignment.

Your web site will contain a home page and at least three (but no more than five) content pages. You are required to create an external style sheet (.css file) that configures text, colour, and page layout. (No font tags, embedded CSS, or inline CSS may be used.)

You must publish your project to the Internet (Xampp server). Required components of the pages include:

- Wireframe for your website
- One e-mail hyperlink
- Consistent banner logo area
- Consistent main navigation
- Association with external style sheet (.css file)
- A page to do registration
- A database that displays includes all participants details, you should allow user to query the database to get information

You may refer to the following link for sample website.
